Video does not show Kamala Harris adjusting 'earphone earrings' prior to presidential debate

Claim:

A video of Kamala Harris talking about a recipe shows her wearing the same earphone earrings she wore during the presidential debate with Donald Trump.

Fact check by Full Fact:

This isn't what the video shows. It dates back to 2019, and in a longer, higher resolution clip Ms Harris can be seen adjusting her in-ear monitor at the request of someone off-screen, while explaining how to brine a turkey. She is also wearing different earrings to the ones she wore during the debate on 10 September.
